## HI-GRIP BANDS

Beaver Hi-Grip Bands are manufactured in the UK to the highest possible standards. Made entirely from 18/8 marine quality stainless steel and with Lloyds Register Approval, they are ideal for salt water and other highly corrosive environments. They are an integral part of your life support system and should be treated with as much care as the rest of your equipment and provide years of trouble-free service when fitted and maintained correctly.

PURCHASED FROM: \_\_\_\_\_

## USE, CARE & MAINTENANCE

1. Ensure that the correct type size of Beaver Hi-Grip Band is selected for the application intended. Seek the expert advice of your authorised Beaver Dealer or certified Diving Technician.
2. A large sized straight screwdriver or 8mm socket is required to adjust the Worm Drive.
3. Prior to fitting, ensure that the Hi-Grip Band is installed in a safe location and will not damage or interfere with the operation of any other equipment.
4. Do not over tighten the Worm Drive as unnecessary excessive pressure may result in damage to the Band and other items.
5. Prior to Diving, check that the Hi-Grip Band remains securely fitted and is not damaged in any way and the use of all other equipment has not been compromised. Under no circumstances should you dive with damaged or faulty equipment.
6. After Use rinse in fresh water, avoid contact with solvents and detergents. Occasionally apply a small quantity of light oil based lubricant to the Worm Drive.
7. Store away from heat sources and avoid direct exposure to the Sun.

## SPECIFICATION

Beaver Hi-Grip Bands are manufactured in the UK to exceed BS5315, which has the highest requirements of any relevant international standards and tests sealing ability, clamping force and torque. Also with BSI Kitemark and NATO approval Beaver Hi-Grip Bands exceed all operational requirements of the applicable DIN and SAE Standards.

## CAUTION

All watersports are potentially hazardous. Before using any watersports equipment you must be properly instructed, trained and certified by a recognised club or organisation.

**PLEASE RETAIN FOR GUARANTEE PURPOSES**
