HI-GRIP BANDS

Your Beaver Hi-Grip Bands are an integral part of your life support system and should be treated with as much care as the rest of your equipment.

These Hi-Grip Bands have been manufactured in to stringent quality control regulations, giving you a product which is strong, durable and will give years of trouble-free service.

MODEL: _____

DATE OF PURCHASE: _____

PURCHASED FROM: _____

CARE AND MAINTENANCE

1. Always ensure that the Hi-Grip band is the correct type and size for your application and must be fitted by an authorised service technician, seek the expert advice of an authorised dealer. Ensure that the Hi-Grip band is installed where it will not damage or interfere with any other equipment.
2. Prior to diving, check that your Hi-Grip band remains securely fitted and is not damaged. Also ensure that it does not interfere with any other item of your equipment.
Under no circumstances must you dive with damaged or faulty equipment.
3. To avoid damage to your Hi-Grip band do not over tighten.
4. After use rinse in fresh water. Avoid contact with solvents, detergents, oils, etc.
5. Keep away from heat sources, and avoid direct exposure to the sun.

SPECIFICATIONS

All Beaver Hi-Grip band are manufactured to comply with BS 5315:1991

CAUTION

All watersports are potentially hazardous. Before using any watersports equipment you should be properly instructed and trained in its use by a recognised club or organisation.
