MULTI DIRECTIONAL REGULATOR HOSE SWIVEL

The Beaver Multi Directional Regulator Hose Swivel forms an integral part of your life support system and should be treated with as much care as the rest of your equipment. It is designed to allow freedom of movement of a suitable Diving Regulator 1st Stage. This accessory has been manufactured in line with stringent quality control regulations, giving you a product which is strong, durable and will give years of trouble-free service providing it is regularly maintained.

MODEL: _____

DATE OF PURCHASE: _____

PURCHASED FROM: _____

INSTRUCTIONS

1. Ensure that the threads, etc. on the Regulator Hose and 1st Stage are compatible with those on the Beaver Multi Directional Regulator Hose Swivel. Seek the expert advice of an authorised dealer when selecting your equipment.
2. The Beaver Multi Directional Regulator Hose Swivel should only be connected to the hose by an authorised service technician.
3. Prior to diving, check that all hoses and accessories are securely attached and located correctly. Ensure that they are in perfect condition and that there are no leaks. Under no circumstances must you dive with damaged or faulty equipment.
4. Do not ever exceed the maximum working pressure of any hose or accessory.
5. After use rinse in fresh water. Avoid contact with solvents, detergents, oils, etc.
6. A full range of replacement o-rings, silicone grease and hose attachments are available from Beaver stockists.
7. Ensure your Beaver Multi Directional Regulator Hose Swivel is serviced on a regular basis by an authorised technician. This should be at least once every 12 months and all internal O-Rings must be replaced and nuts torque set and secured using Loctite 271 or similar.

CAUTION

All watersports are potentially hazardous. Before using any watersports equipment you should be properly instructed and trained in its use by a recognised club or organisation.
