NEOPRENE MASK STRAP

This Beaver Neoprene Mask Strap is an integral part of your diving equipment and should be treated with as much care as the rest of your equipment. This Beaver Neoprene Mask Strap has been manufactured to stringent quality control regulations, giving you a product which is strong, durable and will give years of trouble-free service, providing it is used and maintained correctly.

DATE OF PURCHASE: _____

PURCHASED FROM: _____

CARE AND MAINTENANCE

Always ensure that the equipment you purchase is suitable for the application for which it is intended, if you are not sure seek the advice of an authorised Beaver dealer. Prior to use ensure that your equipment is in good condition and free from faults or damage that may impair it's proper use.

INSTRUCTIONS

1. Your Beaver Neoprene Mask Strap is designed to replace most existing mask straps and increase comfort whilst using your mask.
2. To install, carefully remove the existing mask strap from your mask, taking note of the way it was threaded through the mask clips. Follow any specific instructions given by the mask manufacturer.
3. Carefully re-thread your Beaver Neoprene Mask Strap in the same configuration as the original strap was fitted, with the hook side of the velcro facing inwards to the mask and attach the velcro to the loop surface of the neoprene.
4. Place the mask in the desired position on your head, over the top of a hood if used, and gently adjust the strap length to suit by adjusting the velcro equally at each side. Any excessive overlap of velcro may be trimmed if necessary, taking care not to over shorten.
5. After each use, always rinse your Mask and Neoprene Mask Strap in clean fresh water, dry and store in a clean and dry ventilated area.

CAUTION

All water-sports are potentially hazardous. Before using any water-sports equipment you should be properly instructed and trained in its use by a recognised club or organisation.
