## O-RINGS

Your Beaver O-Rings are an integral part of your diving equipment and should be treated with as much care as the rest of your accessories. Your Beaver O-Rings have been manufactured from materials specially designed for use in and around the water. Beaver O-Rings are manufactured to stringent quality control regulations, giving you a product which is strong, durable and will give years of trouble-free service provided a few basic instructions are adhered to. Beaver supply a large range of O-Rings for use with diving equipment and many other applications, available from your Beaver dealer.

MODEL: \_\_\_\_\_

DATE OF PURCHASE: \_\_\_\_\_

PURCHASED FROM: \_\_\_\_\_

## INSTRUCTIONS

1. Always ensure that the O-Rings you purchase are suitable for the application for which they are intended, if you are not sure seek the advice of an authorised Beaver dealer. Prior to use ensure that your equipment is in good condition and free from faults or damage that may impair it's proper use.
2. Ensure that you select the correct type of O-Ring prior to fitting. Standard and Nitrile type O-Rings are only to be used with natural compressed breathing air. For oxygen enriched applications a Nitrox type O-Ring made from Viton must be used. If you are unsure please seek the advice of a authorised Beaver dealer.
3. All O-Rings should only be fitted by a fully trained and authorised technician.
4. Please refer to the manufactures instructions of equipment that requires replacement O-Rings, ensuring that the correct size and type of O-Ring is used.
5. Fitting of incorrect O-Rings may result in equipment failure or malfunction which may lead to death or serious injury.
6. To avoid damage to O-Rings during installation, ensure that the correct tools are used and lubricate with a compatible silicone grease.
7. When not in use, store in the original packaging, away from any heat sources and avoid direct exposure to the sun.

## CAUTION

*All watersports are potentially hazardous. Before using any watersports equipment you should be properly trained and certified in its use by a recognised club or organisation.*

PLEASE RETAIN WITH RECEIPT FOR GUARANTEE PURPOSES
